POW-R-MATIC® REELS

2000-2800

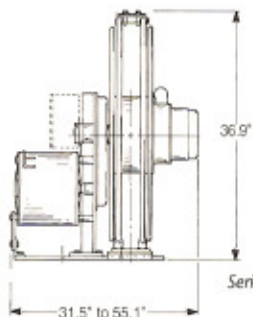

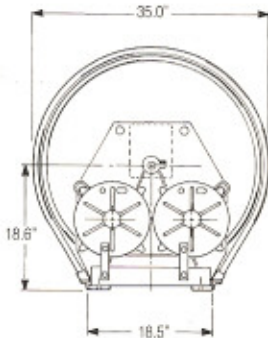

Features:

Cable reels are designed for top performance, long service life and easy maintenance. Ideal for cranes and moving equipment.

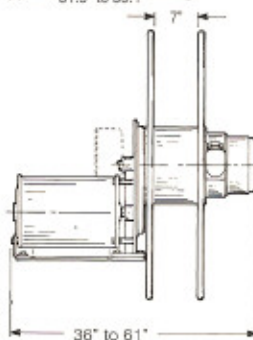

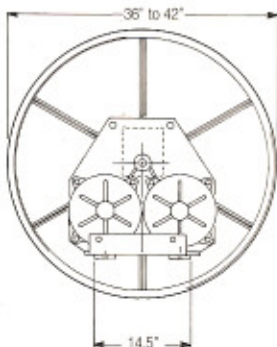

- ▼ Order without cable or fitted with exact cable needed
- ▼ Long life containerized mainsprings are for safe and easy handling
- ▼ Oversized collector rings protect against overloads.
- ▼ Driving and declutching spring hub protects springs from damage when cable is installed or in the event of broken cable
- ▼ Quick-change spring motor and collector ring module simplifies installation and reduces down time
- ▼ Also available for hazardous locations
- ▼ Rugged steel construction

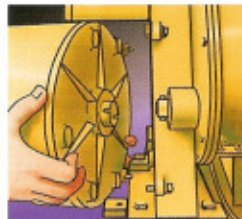

Series 2000-2300

Series 2400

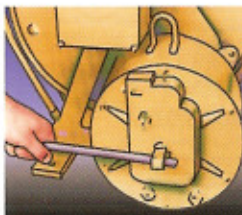

Series 2500-2800

Quick-change spring motor detaches in a snap for easy servicing and replacement

Self-contained slip ring assembly can be removed in one piece for easy service and simple reinstallation

Optional fast-tensioning end plate allows for set-up and tensioning of reel in a matter of seconds, reducing downtime

Some dimensions vary depending on reel model
