POW-R-MATIC® REELS

1100-1500

Features:

Reels are designed for top performance, long service life and easy maintenance. Ideal for hoists, electric tools and moving equipment.

- ▼ Order without cable or fitted with exact cable needed
- ▼ Long life mainspring is containerized for safe and easy handling
- ▼ Collector rings are oversized to protect against overload and self-contained for simple installation and service
- ▼ Driving and declutching spring hub protects springs from damage when cable is installed or in the event of broken cable
- ▼ Optional ratchet lock prevents lockout when cable is extended
- ▼ Models available for hazardous locations & welding applications
- ▼ Rugged steel construction
- ▼ CSA certified

Hazardous location option includes fully enclosed junction boxes

Self-contained slip ring assembly can be removed in one piece for easy service in a matter of minutes
